Public International Law Master of Laws – LL.M.

The one-year Master's programme in Public International Law offers advanced, broad ranging and practice-oriented training in international law. By cooperating with the United Nations Institute for Training and Research (UNITAR), it strives to combine SFU's academic strength with UNITAR's practical focus. Through this programme, graduates acquire the ability to perform demanding legal tasks in the global environment, which equip them perfectly for working for national and supranational authorities, non-governmental organizations, international courts as well as other dispute resolution mechanisms.
