

3rd International Law Congress of Youth Maltepe University
Istanbul-Turkey 9-10 April 2015

"YOUNG APPROACHES TO INTERNATIONAL DISPUTE SETTLEMENT"

Call for Papers

We take great pleasure for inviting you to participate in the 3rd International Law Congress of Youth which will take place in Istanbul, Turkey on 9th-10th April! The topic has been selected as "Young Approaches to International Dispute Settlement", in order to create an international field for young students to reflect their ideas.

International dispute settlement is a relatively new field that combines public and private international law. Therefore, there are new developments on international dispute settlement mechanisms; such as international arbitration, alternative dispute resolutions and dispute settlement in criminal law. Since there have been various approaches taken by the international community in terms of dispute settlement, the significance of international arbitration has become an essential mechanism for resolving disputes with respect to international trade, commerce and investment.

In particular, many international arbitration institutions have established and many States have made various amendments in their arbitration and mediation laws in order to reach and to provide "arbitration and mediation friendly" environment. Moreover, many law schools around the world offer a range of international arbitration courses, seminars and conferences to examine and to discuss these new approaches on international dispute settlement.

Thus, we invite you to share your ideas with people all around the globe! As Maltepe University Faculty of Law, we would like to catch these "developments", too. It will be an honour to see you in 3rd International Law Congress of Youth.

Why you should participate in this conference?

The 3rd International Law Congress of Youth on "Young Approaches to International Dispute Settlement" aims to provide a multinational platform and to combine academic activities with an opportunity to meet the historical and gorgeous city of Istanbul.

It would be possible for attendees to visit Istanbul's modern and historical areas during the city tour which will be offered by organizers of the conference.
